

Dow and DuPont Receive Antitrust Clearance from U.S. Department of Justice for Proposed Merger of Equals

-- DOJ Clearance Builds on Strong Progress in Regulatory Approval Process Across Jurisdictions --

-- Merger on Track to Close in August 2017 --

WILMINGTON, Del. and MIDLAND, Mich., June 15, 2017-- DuPont (NYSE: DD) and The Dow Chemical Company (NYSE: DOW) announced today that they have reached a proposed agreement with the Antitrust Division of the United States Department of Justice (DOJ) that will permit the companies to proceed with their proposed merger of equals.

"We are very pleased that the DOJ has approved this transaction," said Andrew Liveris, Dow's chairman and chief executive officer. "With today's DOJ clearance, we have taken a significant step forward in bringing together these two iconic enterprises, and in the subsequent intended separation into three leading, independent innovation-based science companies that will generate significant benefits for all stakeholders."

Ed Breen, chair and chief executive officer of DuPont, said, "With this review completed, we are on track to close our procompetitive merger in a manner that maintains the strategic logic and value creation potential of the transaction. Going forward, the intended subsequent spin-offs are expected to unlock significant value for shareholders, as we execute our plan for each company to be a growth-oriented leader in attractive segments where global challenges are generating strong demand for their distinctive offerings."

In connection with the proposed agreement and consistent with commitments already made to obtain the European Commission's regulatory approval, DuPont will divest certain parts of its crop protection portfolio and Dow will divest its global Ethylene Acrylic Acid copolymers and ionomers business. The proposed agreement with the DOJ, which remains subject to court approval, does not require the companies to make any additional divestitures. With this agreement, no further approvals are required in the U.S. for the merger to close.

The companies reiterated that the merger transaction is expected to generate cost synergies of approximately \$3 billion and growth synergies of approximately \$1 billion.

To date, Dow and DuPont have obtained clearance in many jurisdictions, including approvals in the U.S., Europe, Brazil and China. The companies are working constructively with regulators in the remaining jurisdictions to obtain clearance for the merger and are making progress in fulfilling the requirements of the conditional approvals that have already been received.

The companies reaffirmed their expectation to close the merger in August 2017, with the intended spin-offs to occur within 18 months of closing.

Cautionary Notes on Forward Looking Statements

This communication contains "forward-looking statements" within the meaning of the federal securities laws, including Section 27A of the Securities Act of 1933, as amended, and Section

21E of the Securities Exchange Act of 1934, as amended. In this context, forward-looking statements often address expected future business and financial performance and financial condition, and often contain words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “see,” “will,” “would,” “target,” similar expressions, and variations or negatives of these words. Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements about the consummation of the proposed transaction and the anticipated benefits thereof. These and other forward-looking statements, including the failure to consummate the proposed transaction or to make or take any filing or other action required to consummate such transaction on a timely matter or at all, are not guarantees of future results and are subject to risks, uncertainties and assumptions that could cause actual results to differ materially from those expressed in any forward-looking statements. Important risk factors that may cause such a difference include, but are not limited to, (i) the completion of the proposed transaction on anticipated terms and timing, including obtaining regulatory approvals, anticipated tax treatment, unforeseen liabilities, future capital expenditures, revenues, expenses, earnings, synergies, economic performance, indebtedness, financial condition, losses, future prospects, business and management strategies for the management, expansion and growth of the new combined company’s operations and other conditions to the completion of the merger, (ii) the ability of Dow and DuPont to integrate the business successfully and to achieve anticipated synergies, risks and costs and pursuit and/or implementation of the potential separations, including anticipated timing, any changes to the configuration of businesses included in the potential separation if implemented, (iii) the intended separation of the agriculture, material science and specialty products businesses of the combined company post-mergers in one or more tax efficient transactions on anticipated terms and timing, including a number of conditions which could delay, prevent or otherwise adversely affect the proposed transactions, including possible issues or delays in obtaining required regulatory approvals or clearances, disruptions in the financial markets or other potential barriers, (iv) potential litigation relating to the proposed transaction that could be instituted against Dow, DuPont or their respective directors, (v) the risk that disruptions from the proposed transaction will harm Dow’s or DuPont’s business, including current plans and operations, (vi) the ability of Dow or DuPont to retain and hire key personnel, (vii) potential adverse reactions or changes to business relationships resulting from the announcement or completion of the merger, (viii) uncertainty as to the long-term value of DowDuPont common stock, (ix) continued availability of capital and financing and rating agency actions, (x) legislative, regulatory and economic developments, (xi) potential business uncertainty, including changes to existing business relationships, during the pendency of the merger that could affect Dow’s and/or DuPont’s financial performance, (xii) certain restrictions during the pendency of the merger that may impact Dow’s or DuPont’s ability to pursue certain business opportunities or strategic transactions and (xiii) unpredictability and severity of catastrophic events, including, but not limited to, acts of terrorism or outbreak of war or hostilities, as well as management’s response to any of the aforementioned factors. These risks, as well as other risks associated with the proposed merger, are more fully discussed in the joint proxy statement/prospectus included in the Registration Statement filed with the SEC in connection with the proposed merger. While the list of factors presented here is, and the list of factors presented in the Registration Statement are, considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors may present significant additional obstacles to the realization of forward looking statements. Consequences of material differences in results as compared with those anticipated in the forward-looking statements could include, among other things, business disruption, operational problems, financial loss, legal liability to third parties and similar risks, any of which could have a material adverse effect on Dow’s or DuPont’s consolidated financial condition, results of operations, credit rating or liquidity. Neither Dow nor DuPont assumes any obligation to publicly provide revisions or updates to any forward

looking statements, whether as a result of new information, future developments or otherwise, should circumstances change, except as otherwise required by securities and other applicable laws.
